Online Language Courses

Learn to Understand.

Welcome to Romance Language Centre

Do you find yourself going through and wasting money on crash language courses that award you degrees and guarantee that you will climb the proficiency scale in a matter of 6-12 weeks if not less? Are you never quite able to speak, write, understand or read at awarded level independently nor do you feel confident as a foreign language user?

Were you taught a number of dry rules and told "because so" when you wanted to understand more? Can you say that you understand how the language you wish to use functions?

Romance Language Centre was established in the UK in 2021 with the goal of offering quality language education based on understanding, in contrast to the global trend of crash courses that promise unrealistic outcomes for the sake of profit.

We are a team of university lecturers and teachers with over a decade of academic experience and with a strong passion for studying and teaching languages. We believe that successful language acquisition, that will result in lifelong linguistic independence and fluency, takes time, dedication and hard work. It is our expertise to assist you on your journey towards fluency and to help you learn how to learn languages successfully. Our courses are built on **realistic** standards for language learning, following the Common European Framework for Reference. We want to ensure that your language learning happens through understanding of linguistic patterns and contexts so you would be capable of independent application of your skills and knowledge at any given time and regardless of the situation.

Our method offers high standard education about linguistic concepts, grammar and culture, all while developing the 4 main skills that lead to proficiency: speaking, reading, listening & writing. We do not support cramming nor do we give false promises and guarantees of proficiency. We are here to make your journey to mastering your target language easier by equipping you with in-depth linguistic and cultural knowledge necessary to develop and improve language skills at your desired level, however, we firmly believe that the only thing that will eventually lead to mastery is the hard work and time you are willing to invest.

Start your language learning journey with Romance Language Centre and we promise you only what we can control:

Levels

Romance Language Centre's courses follow the criteria of the Common European Framework of Reference for Languages (CEFR) that uses predetermined descriptors to specify what a learner should be able to do in their target language at each level regarding the 4 main skills: reading, speaking, listening, and writing. This serves a greater degree of uniformity and transparency in the study of foreign languages. According to CEFR, the learning is divided into six levels, starting with A1 and ending in C2. Additionally, each CEFR level consists of a different number of courses. Our current 2022 courses cover levels A1 to B1 with each level increasing in difficulty and time necessary to complete it.

Beginners should start with our Beginner 1 (A1.1.) course, however, if you have any previous knowledge you should take our compulsory test that will help us place you at the appropriate level. In order to progress to the next level, you must complete your course successfully which will include a final test.

How long does it take to learn a language?

In today's fast-paced world, there's lots of emphasis on instant gratification. The world of language learning is no exception with the rise of tourist level learning, however, all the research out there, and our own decades long experience, suggests that it takes between 400 and 2200 hours of study plus a lot of practice to learn a foreign language at a proficiency (C1-C2) level. Unfortunately, the promise of speed sells. At Romance Language Centre, speed is not a top priority. We do not want to sell unrealistic promises, but to help you achieve understanding and retention that will eventually lead to independence in use and fluency. Our students understand that, just like so many of life's most worthwhile things, learning a language takes time and effort.

CEFR recommends that it takes approximately **200** guided learning hours for a learner to progress from one level to the next. From our experience, supported by the Cambridge University, average learner will require around 100 guided learning hours to complete A1; 180+ hours to complete A2; 250-400 guided hours to complete B1, and anywhere from 500-600 guided hours to reach B2.

Our current courses include:

128 guided learning hours to complete CEFR level A1

192 guided learning hours to complete CEFR level A2

256 guided learning hours to complete CEFR level B1
